FIRST QUARTERLY REPORT

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on the GEM are generally small and mid-sized companies, there is a risk that securities traded on the GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on the GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

*This report, for which the directors (the “**Directors**”) of Lumina Group Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material aspects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

BUSINESS REVIEW AND OUTLOOK

The Group is an established fire safety services provider in Hong Kong, focusing on fire safety of various types of buildings. Our services cover the design, supply and installation of fire safety systems which include evacuation and electrical fire alarm systems, water and gas suppression systems and portable fire equipment for newly built and existing buildings. We also provide repair and maintenance services to fire safety systems to satisfy the requirements of the Fire Services Department.

Looking forward, the Directors consider that the future opportunities which the Group faces will be affected by the condition of the property market in Hong Kong. The Directors are of the view that the number of properties to be built or to be redeveloped in Hong Kong is the key driver to drive the demand for fire safety services in Hong Kong.

Our listing status enhanced our corporate profile and recognition that in turn reinforced our brand awareness and image in both of our existing and potential customers. To capture the growth in the market, our Board and management are actively exploring new business opportunities by keeping track of any new projects through existing and new network, including the projects of fire safety systems and plumbing and drainage systems.
